RENAULT

MEGANE

DRIVE THE CHANGE

DESIGN YOUR LIFE

A CUTTING-EDGE DESIGN, BURSTING WITH BOLD CHOICES: A DARING LOGO, IMPOSING SHAPES AND PROMINENT LED LIGHTS, SET OFF WITH CHROME-PLATED PARTS. WITH ELEGANCE AND MATURITY, THE NEW MEGANE IS FORGING AHEAD, INNOVATING, EXUDING LIFE AND INVITING YOU ON BOARD. DESIGNED FOR YOUR PLEASURE AND THAT OF YOUR PASSENGERS.

4.

*STRONG
PERSONALITY*

1. Mégane Coupé. Elegance takes a step further. With its new design, LED lights and expressive lines, the New Mégane Coupé reinvents the very concept of 'sporty chic'. **2. Renault Sport version.** Directly inspired by motor racing, exuding efficiency and with a thirst for performance, the New Mégane R.S. is in pole position. **3. GT Line Versions.** With a streamlined front end and sporty character, the New Mégane sets your heart racing even before you take the wheel. **4. Grand Mégane.** Much more than a simple estate car! The New Grand Mégane marks a triumphant return to a flowing silhouette, attractive body and multi-purpose style. A perfect balance.

DRIVE IN CONTROL

IN TERMS OF EQUIPMENT, THE NEW MEGANE LEADS THE PACK: WITH THE RENAULT R-LINK MULTIMEDIA SYSTEM WITH TOMTOM® NAVIGATION, YOU ARE IN CONTROL! MAKE YOUR DRIVING EVEN SAFER WITH THE 'GUARDIAN ANGEL' VISIO SYSTEM® AND MAKE THE MOST OF YOUR JOURNEY AT THE WHEEL OF THE NEW MEGANE.

CONTROL AND SAFETY

1. Renault R-Link touchscreen multimedia system. TomTom® navigation, multimedia, hands-free telephone calls, online applications... The customisable Renault R-Link system is designed to control the essential functions intuitively and in complete safety, without taking your eyes off the road. With Renault R-Link, benefit from the Driving Eco² function and drive intelligently, receiving customised advice to improve your fuel consumption (depending on the engine). **2. Visio System®.** This system uses a high definition camera to detect road markings and warns you with a visual and audible warning if you cross a continuous or discontinuous white line without indicating. The "automatic main beam" function also adapts the power of the lights according to the environment. **3. Technology specific to the New Mégane R.S.: R.S. Monitor 2.0.** On-board telemetry that allows you to see your driving parameters: engine, gearbox, grip. **R.S. Drive.** Pressing this button modifies the behaviour of the ESC, the feeling of the steering and the sensitivity of the accelerator pedal according to three modes: "Normal", "Sport" and "Race". **4. Dual-Zone Climate Control.** Customised climate comfort, allowing each front-seat passenger to choose the temperature they prefer. There are three available modes designed to suit everybody.

* Please note options featured may be standard or optional depending on version

A piercing gaze, a new, strikingly stylish front end,
harmonious lines, economical and dynamic Energy engines...
With the New Mégane Hatch and New Grand Mégane,
you can stay ahead of the pack!

POWERFULLY ECONOMICAL BURSTING WITH ENERGY

THE WINNING DUO

ROB WHITE

Director,
Renault Sport F1®

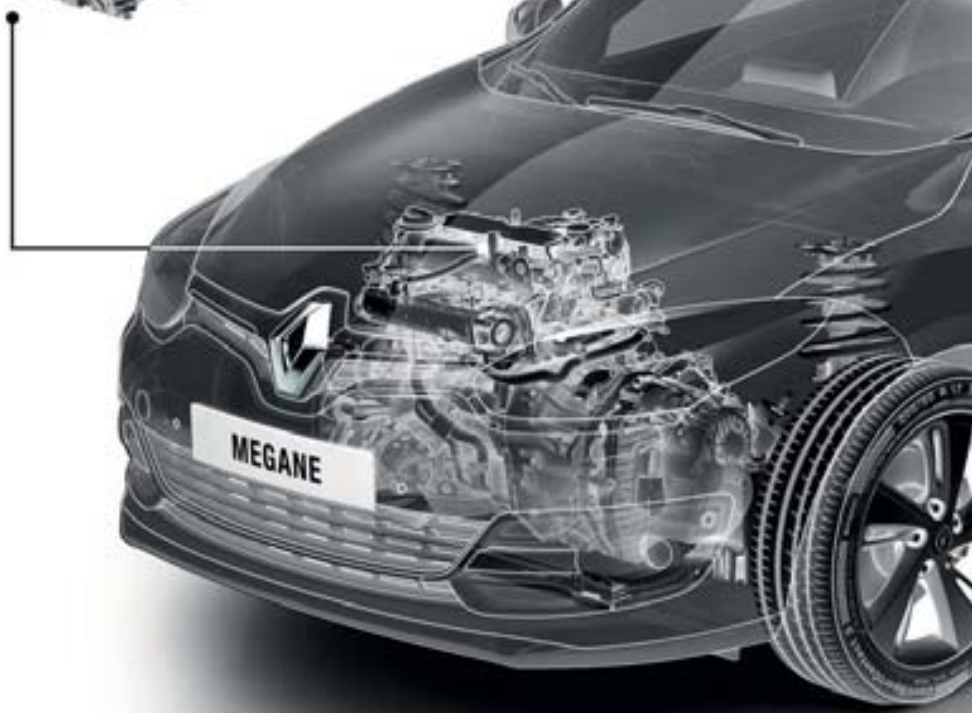

GASPAR GASCON

Director,
Renault Power Train Engineering

At Renault, technological innovation is driven by the passion of our employees. **Rob White**, **Technical Director of Renault Sport F1®**, works with his team to create the Renault engines that power a quarter of all Formula 1® teams. Winning engines for over 35 years! World champions 11 times. For production cars, **Renault Power Train Engineering Director Gaspar Gascon** and his staff develop the new ranges of Energy engines.

Think the two are unrelated? Think again. On a day-to-day basis, Rob and Gaspar keep in touch, discussing and working together to develop new ideas, each benefiting from the other's know-how with the enthusiasm of natural-born pioneers. Their goal: to reduce fuel consumption and CO₂ emissions by 35%, test engine strength under extreme conditions and take the everyday pleasure of driving a Renault to ever greater heights.

When two teams of engineers obsessed with innovation combine their efforts and share their expertise, the drive for creating some of the world's best engines is doubled.

FLEXIBLE, EFFICIENT, ECONOMICAL: THE NEW MEGANE IS EQUIPPED WITH THE ENERGY ENGINE RANGE. WITH ENGINES DERIVED FROM FORMULA 1[®] TECHNOLOGY, THE NEW MEGANE COMBINES EXCITEMENT, ECONOMY AND A LIMITED ENVIRONMENTAL IMPACT.

ENERGY ENGINES: MORE TECHNOLOGY, MORE PLEASURE AND MORE FUEL ECONOMY.

Energy engines offer a number of innovations designed to make driving an enjoyable experience while keeping fuel consumption in check. Dynamic, powerful, economical in terms of both fuel and CO₂, these engines – some of which are taken directly from the world of Formula 1[®] racing – are highly responsive.

In terms of driving pleasure nothing is left to chance, whilst their fuel consumption and emissions are on a par with the very best. Downsizing (capacity reduction), Stop & Start and a new energy recovery system on braking and deceleration (Energy Smart Management): innovations that allow the Energy engines to combine a reduced environmental impact with driving pleasure!

A RANGE OF WIDELY-PRAISED ENGINES:

- ENERGY TCe 115: fuel consumption of 5.3 L/100 km⁽¹⁾ and 119 g/km of CO₂⁽¹⁾
- ENERGY dCi 110: 3.5 L/100 km⁽¹⁾ and 90 g/km of CO₂⁽¹⁾

ENERGIE dCi 110 ENGINE: DYNAMISM, RESPONSIVENESS, COMFORT AND ECONOMY.

The Energy dCi 110 engine is efficient and economical – both in terms of cost to purchase and to use. The ever present goal of Renault's engineers is to improve the engine's productivity and lower consumption (l/100km) and emissions (g/km CO₂), while maintaining the same power. With the Energy dCi 110 engine, New Mégane offers an impressive 3.5l/100km* and only 90g/km of CO₂.

The Stop & Start technology means that drivers can save more than 1 litre of fuel per 100km* in urban driving, while also reducing emissions. When the driver steps on the clutch, the start-up is almost immediate. The driver also benefits from 260 Nm of torque, with 80% of the torque available from 1,500 tr/min to allow recovery and acceleration.

This is all achieved by utilizing the very latest engine technology – much of which comes from Renault's Formula 1 experience and expertise.

⁽¹⁾ Official consumption according to applicable regulations for New Mégane Hatch.

EQUIPMENT

FULL LIST OF THE EQUIPMENT AVAILABLE FOR YOUR VEHICLE.
EVERYTHING YOU NEED FOR A BESPOKE VEHICLE.

MÉGANE HATCH AND GRAND MÉGANE

Main Standard Equipment on Expression ABS and EBA (Emergency Brake Assist) Automatic lighting of hazard lights during emergency braking 3-point front seatbelts with adjustable pretensioners and load limiters 3-point rear seat belts with load limiters (centre and side seats) Visual and audible driver seat belt reminder Self-adapting front airbags Front lateral (chest/pelvis) airbags Manual unlocking of front passenger airbag Isofix attachment system in rear side seats	Remote control Renault Keyless-Drive Height and depth-adjustable steering wheel Illuminated glovebox and boot Manual air-conditioning Manual air recirculation Outside temperature display Spaces for luggage tie-down rings in the boot Electrically adjustable, demisting, manual fold-in door mirrors Driver and passenger one-touch electric window winders with anti-pinch feature Manual rear windows Height adjustable driver's seat	Front under-feet storage compartment flaps 1/3 : 2/3 splitfold rear bench seat R-Plug&Radio+ (Bluetooth®, AUX and USB connectivity) Rear view mirror with day/night position Halogen DRL (Daytime Running Lights) 15" wheel trims Tyre inflation kit / spare wheel*	EXPRESSION
