Renault ZOE

# Simply Revolutionary

With Renault ZOE, a new automotive era has begun. Tomorrow’s technology taking care of you and the environment you live in today.

Imagine roads free of engine noise, with no CO<sub>2</sub> or NOx emissions, a city where you can breathe more easily. Does that appeal to you?

With ZOE, rediscover the pleasure of motoring every morning: driving is a relaxed experience. A car that is clean on the outside and clean on the inside; one that you can communicate with remotely. No more queuing at petrol stations, you just have to plug it in. You save time and effort.

Come along and test drive Renault ZOE and you’ll see why we’re excited by it.

Dominique Lucas, Director, Electric Vehicle Range, Product Department

## Expression

### Technology

- 7kW Z.E. ready domestic wallbox fitted at your home (exclusive to retail customers)
- ABS with EBD (Electronic Brake Distribution) and emergency brake assist
- Carminat TomTom® navigation system
- Chameleon™ charger allowing recharge between 30 mins and 9 hours
- Charging cable (Type 2 Mode 3) with Z.E. bag
- Climate control air conditioning with temperature and humidity sensors
- Cruise control / speed limiter
- Eco-mode with activation / deactivation button
- Econometer, battery gauge, and integrated mileage counter
- Electronic brake distribution (EBD)
- Electronic stability control (ESC) with anti-skid regulation (ASR) and understeer control (CSV)
- Hill start assist
- R.A.I.D. (Renault Anti Intruder Device) automatic door locking
- Range OptimizER: Heat pump, bi-modal braking system and Michelin ENERGY™ E-V tyres
- R-Link voice controlled 7" touchscreen multimedia device
- Z.E. Connect: remote monitoring of battery charge and estimated range
- Z.E. Voice (low speed pedestrian warning)

### Interior

- 4 x 20W Classic radio with 2 front and 2 rear double cone speakers and single antenna
- Air upholstery
- Front driver and passenger airbags
- Front side body and head airbag for driver and passenger
- Glovebox (7 litres)
- Height adjustable 3-point front seatbelts with pretensioners
- Height adjustable headrests on outer rear seats
- ISOFIX fittings on outer rear seats and front passenger seat
- Passenger airbag (can be deactivated to fit child seat)
- Reach and height adjustable steering wheel
- Three-point side rear seat belts with load limiters
- Tyre repair kit
- USB port, Jack, SD multimedia, Bluetooth® handsfree phone capability and voice control
- Z.E. Pre-conditioning of interior temperature from inside vehicle (activate air con / heater whilst charging)

### Exterior

- Deadlocking
- LED (Daytime Running Lights)
- 15" Michelin ENERGY™ E-V tyres with 15" Aerobase wheel trims
- Black rear door handles with ZOE designer signature
- Body coloured front door handles
- Bi-halogen optical projector front headlights
- Door mirrors electrically operated and heated

### Options

- 16" Michelin ENERGY™ E-V tyres with Aerotronic 16" alloy wheels
- 3D Digital sound system by Arkamys™, double aerial, two woofers, two rear double-cone speakers, and two tweeters
- Metallic paint
- Western European mapping
- Z.E. Digital (remote access to App store, e.g. email access)
- Z.E. Interactive: remote battery charging, remote preconditioning and charge scheduling
- Z.E. Live Services (HD traffic updates, speed camera alerts, google search and weather forecasts)

## Dynamique Zen

Additional equipment to Expression

### Technology

- Rear parking sensors
- Hands-free key card
- Z.E. Interactive: remote battery charging, remote preconditioning and charge scheduling

### Interior

- 3D digital sound system by Arkamys™, enhanced radio reception, two woofers, two rear double-cone speakers, and two tweeters
- Driver and passenger sun visors with courtesy mirror
- Front and rear electric windows with driver one-touch anti-pinch mechanism
- Leather steering wheel and gear knob
- Rear pockets on the back of passenger seat
- Zen "Take Care" by Renault: active scent diffuser, ioniser and toxicity sensor for maximum cabin comfort
- Zen interior with Teflon™ treatment for maximum seat protection

### Exterior

- 16" Michelin ENERGY™ E-V tyres with Aerotronic 16" alloy wheels
- Automatic wipers with rain sensors and automatic front lights

### Options

- Metallic paint
- Tech Run 17" alloy wheels\*
- Western European mapping
- Z.E. Live Services (HD traffic updates, speed camera alerts, google search and weather forecasts)

\*Only available with Standard tyres for 17" alloy wheels (approx 10km reduction in NEDC range)

## Dynamique Intens

Additional equipment to Expression

### Technology

- Tech Run 17" alloy wheels\*
- Western European mapping
- Z.E. Live Services (HD traffic updates, speed camera alerts, google search and weather forecasts)

\*Only available with Standard tyres for 17" alloy wheels (approx 10km reduction in NEDC range)

The New Renault ZOE offers the highest level of safety on all versions. It has been awarded 5 stars in the passive safety tests performed by the independent organisation Euro NCAP. There are 4 safety categories for 2012: protection of adults, children and pedestrians and driver aids. With an overall score of 85%, the New ZOE is best in class for its segment.

Renault ZOE  
Style

We all want style in our lives, and ZOE turns heads wherever she's seen. The slimline headlights, swooping roofline, and hidden rear doors create a great first impression, even from a distance... but ZOE continues to impress up close. See how many neat little details you can spot around the car; from the cheeky 'dimples' to the designer's fingerprint, ZOE has just as much personality as you do.

Connected to your vehicle

# Renault R-Link

It's Ireland - so it's probably raining. You're going to have to stay a little longer than expected in the café... May as well make the most of things and start charging your ZOE right now. Why not switch on the heating too so that your car is lovely and warm when you get in? All this from your smartphone or computer without even stepping out of the door.

- 1. Display ZOE's driving range and locate charge points.
- 2. Listen to the radio or to music on your mobile system, look at your photos, or watch videos.
- 3. Make a few phone calls (hands-free, of course).

- 4. Retrieve your e-mails or tweets and stay connected.
- 5. In your ZOE, just as from your tablet or smartphone, you can purchase apps from the R-Link Store (news, travel, games, e-mail, and social networks) or make the most of the pre-installed apps.
- 6. You can instantly see the driving range available to you and how much battery charge you've got left via your smartphone thanks to the My Z.E. Connect Pack and with the Z.E. Interactive Pack you can set up remote battery charging, remote preconditioning and a charging schedule. The Z.E. Interactive pack is standard on Dynamique Zen and Dynamique Intens.

60 Patents:

# What for?

So you can drive around in a car that gives you everything your current vehicle does, with more connectivity and style yet less hassle, noise and stress, and a best-in-class driving range. Let’s take a closer look at the state-of-the-art technologies that allowed the zoe to achieve a driving range of 210 km\* on a single charge during its approval process.

ZOE is the first mass-produced electric vehicle with an official NEDC\* driving range of over 190 km\*\*. But what does this figure mean? Just like any other vehicle approval process, it is performed under ideal driving conditions (no heating or air conditioning is used). The results allow a true comparison to the performance of other electric vehicles. As is the case for internal combustion vehicles, speed, hills, driving style, and the use of heating or air-conditioning will all have an impact on the actual driving range. So, for example, on a suburban road, you might generally achieve around 100 km in the winter season and 150 km in the warmer seasons.

\*NEDC: New European Driving Cycle, the European standard for emissions and consumption, is a method for measuring fuel consumption based on identical tests carried out on all types of vehicles in Europe, whether they are internal combustion, electric, or hybrid. It is therefore an objective test for comparing performance between models of various manufacturers. There are two parts to the test. The vehicle is put on a roller bench and driven through the same urban cycle (cycle ECE-15) three times, followed by a single extra-urban cycle. The average of these four cycles gives the average NEDC range. Please see the technical specifications page for more details on range. \*\*The official NEDC driving range is 193 km with 17” wheels.

**The range optimizer system**

This groups together three major innovations that make ZOE’s performance possible. What are they?

• **New-generation regenerative braking**

The battery receives energy not only each time the car decelerates when the driver takes his/her foot off the accelerator but also, and this is what’s new, when the driver presses the brake pedal.

• **Heat pump**

Rather than drawing on the battery, the ‘reverse-air conditioning’ system captures energy from the air to warm, or cool, the cabin. One single system that performs two functions!

• **MICHELIN ENERGY™ E-V Tyres**

Specially designed for Renault ZOE, they offer ultra-low resistance when driving. They have the same road handling and braking capacity as the Michelin tyres used on other vehicles.

**Optimize the driving range with Renault ZOE**

Renault ZOE offers you a wide range of measures to maximise your driving range.

• **Pre-conditioning**

This allows you to programme the heating or air conditioning while ZOE is still charging. In this way the power used to create the ideal cabin temperature does not deplete the battery.

• **Eco mode**

The Eco button moderates air-conditioning or heating power and performance for greater driving range.

• **Eco-driving tips**

ZOE can help give you advice on how to make the most of the energy at your disposal.

# Think Electric

We designed ZOE so that it is simple to use, a pleasure to drive, and easy for everyday life. For example, we’ve used less glass in the design to help the climate control work more efficiently. As for the underfloor battery, it lowers the centre of gravity, which ensures good road handling and maximises the interior space and the boot volume.

**The Chameleon™ Charger**

ZOE is the first electric vehicle to be fitted with the Chameleon™ Charger patented by Renault. The Chameleon adapts to the various power levels available for charging. This innovation means Renault ZOE is compatible with standard charging (6 to 9 h), accelerated charging (80% in 1 h)\* or rapid charging (80% in 30 min).† All this using one single charger.

**Charge points on the Renault R-Link**

R-Link features TomTom navigation which will show charge points near you, or on your route.

**The battery**

Just like the other models in the Renault Z.E. Range, ZOE is fitted with a lithium-ion battery, offering great performance. It is very simple to charge, even when it is fully discharged. It can also be recycled at the end of its life.

• ZOE is environmentally friendly: no smell, very quiet, and zero g/km of CO<sub>2</sub> (while in use).‡

• ZOE maximizes recycling: 85% recyclable by mass and includes 9% recycled plastic (100% in the case of the battery).

• ZOE features an electric engine with a wound rotor putting out 65 kW or 87 hp.

• ZOE allows instant acceleration and pick-up even at low revs, thanks to the 220 Nm peak torque available at full force from just 250 rpm.

† Battery charged from a public charge point.  
‡ Zero CO<sub>2</sub> emissions from the tailpipe.

1. Underfloor battery for maximum interior space and boot volume. 2. Only one third of the vehicle is glazed to make it more stylish and improve energy efficiency. 3. Space for five people. 4. 338 litres boot volume. 5. New-generation regenerative braking. 6. MICHELIN ENERGY™ E-V tyres. 7. Heat pump. 8. Chameleon™ charger: three possible charging modes using one single charger.

How it makes sense

Battery hire

It's simple and unique to Renault: you buy the vehicle and hire the battery. That makes your Z.E. more affordable and gives Renault the chance to offer you high levels of reassurance and complete peace of mind.

No worries – complete 24/7 roadside assistance, even if you run out of charge.

Battery performance is guaranteed to at least 75% of it's original charge capacity. If not, we'll repair or replace it.

You only pay for what you need – you tell us how many kilometres you'll do and how long you'd like to keep your Z.E.; we personalise your battery hire monthly payment to your own individual requirements.

You enjoy your Z.E. while we keep its heart healthy. It's that easy.

ESB home

Charge point

No fuss, clean easy – these are all things that we love about Electric Vehicles. And to make your motoring life even easier and give you the maximum enjoyment of your new Renault ZOE, ESB will provide and install a free home or workplace charge point\* for the first 2,000 purchasers of new EVs that qualify for the SEAI grant. This is in addition to the €5,000 Government grant towards the cost of your ZOE which is also exempt from VRT, making electric motoring an all round attractive proposition.

The home charge point is a compact unit that can be installed on an external wall of your home and electric car charging is facilitated through the domestic electricity supply. Its 3.6kW capacity means that your ZOE's battery can be fully recharged from flat in just 5-6 hours. In addition, to the convenience of home charging, you will receive a charge point access card which will enable you to use the nationwide network of public charge points. Cross border compatibility will allow also ecar drivers to access the public charging infrastructure in Northern Ireland.

\*Assumes availability of suitable off street parking. Full terms and conditions are available on [www.esb.ie/ecars](http://www.esb.ie/ecars)

## Renault Finance

**Renault Finance**, the bank you can bank on. Choose the finance solution that best suits your needs.

At **Renault Finance**, we pride ourselves on being:

- **Flexible.** We have flexible payment plans. We can tailor the term, the deposit or the repayment to meet your needs.
- **Competitive.** We offer competitive rates and attractive financial packages you will not find anywhere else.
- **Simple.** We provide an easy application process, quick decision and minimum paperwork, all at your Local Dealer.
- **Creditable.** We are part of one of Europe’s largest motor finance companies and offers financial services to millions of customers everyday.

Renault Finance is a trading name of RCI Banque Branch Ireland, a wholly owed subsidiary of the Renault Group. RCI Banque is regulated by the French banking authority and is supervised by the Central Bank of Ireland for conduct of business purposes.

# Accessories protection pack

Protect your ZOE from the perils of the road and the car park with the protection pack.

**1. Boot liner:** The custom-made boot liner allows you to place various items in the boot (especially dirty items) and is a good way of protecting the original carpet. **2. Alarm:** The essential accessory to ensure the car’s security. It will protect effectively from theft of the car and objects inside it. **3. Door sill trim:** Add an extra touch of class to your Renault ZOE.

## Luxe pack

Enhance the comfort, practicality and style of your ZOE with the Luxe pack.

**1. Rear head restraint:** Improve passenger comfort with the central rear head restraint. Available in a range of colours to match the car’s interior trim. **2. Central armrest:** For improved driver comfort, the central armrest also provides a practical storage area. Available in Blue, Light Grey, or Black. **3. Boot net:** Prevent your belongings from getting damaged on the move with the boot net.

## Delivery pack

**1. Premium mats:** Available in two different colours to harmonise with your car colour choice, these made to measure carpet mats will protect your car’s carpet. **2. Safety kit:** Complete kit including a warning triangle, a thermal blanket, a vest and a first aid kit.

## Premium delivery pack

Upgrade your delivery pack with the special Z.E. designed mats. They simply clip into the pins the vehicle comes fitted with. Made from rubber, they are easy to clean.

## DAB digital radio

The ZOE DAB system gives crystal-clear sound and a vast array of stations.
